**Project Engineer (District Energy) (Re-Post)**  
**Job ID: 2017267**  
**Temporary Full-Time**  
**\$87,696 to \$109,619 Annually**

Reporting to District Energy Manager, the Project Engineer will be responsible for overseeing the design, construction, and operations of district energy engineering work, including preparing, negotiating, and managing new district energy partnerships.

We are seeking an outstanding individual with in depth knowledge and expertise in district energy construction, operations, maintenance, engineering and technical design, strong project management skills, along with strong attention to details, problem solving skills, and effective verbal and written communication skills.

Qualified candidates will possess a Professional Engineer designation, coupled with a Bachelor's Degree in Engineering or Applied Science (preferably Mechanical), along with two (2) to five (5) years, related experience in district energy, heating, HVAC design engineering and/or civil engineering, including experience with large scale projects with multiple clients.

The Lulu Island Energy Company offers a competitive salary and an excellent benefits package. If you are looking to make a difference, please submit your application by following the instructions below:
